

HERSHAM VILLAGE IS IN DANGER

PLANNING APPLICATION IMMINENT

The whole community must be made aware that the application for the Hershams Centre redevelopment is likely to be submitted in the very near future

This redevelopment could be a **DISASTER** for our village

The latest known proposals:

- Waitrose car park will be developed into residential blocks - up to 6 storeys high, with inadequate car parking
- Permanent loss of 50% of the parking capacity which will be grossly inadequate for current users, including local businesses, Burhill School, Doctors Surgery and Waitrose
- Loss of 50% of the retail units in the Centre

This means that:

- The future of Waitrose is uncertain
- Local shops and businesses are at risk, with possible catastrophic outcomes
- The consequences for all residents will be irreversible
- The heart of your village will be lost forever

When the planning application is registered, **time will be critical**

There may only be about 3 weeks to lodge an objection

EVERYBODY must make an individual objection. Block or group objections **will only count as one**
Details of how to object will follow...

When the time comes, it is vital that everybody registers an individual objection

SAVE
Hershams Centre

**Be ready
to object**
